The Original Water Hyacinth Furniture by

YOTHAKA
INTERNATIONAL CO. LTD.

www.perfectpieces.co.nz

Eichhornia crassipes, a prolific floating plant better known as water hyacinth, has long menaced canals, rivers and lakes throughout Thailand. But now, metre by metre thanks to ingenuity and hard work, the Thai people are winning back territory previously lost.

A single water hyacinth plant generates enough seeds to produce 3,000 offspring in just over a month – a hectare of water hyacinth can double in size in just 8 days. Over time it forms a mat of floating foliage dense enough for people to walk across, blocking boats and fishing nets.

It steals sunlight and oxygen, proving hazardous to aquatic plants and fish. Harvesting the plants, villagers dry them for a few days in the sun and when the stalks turn to a golden brown colour they are then ready for braiding.

Yothaka International have over 200 employees, plus more than 1,000 villagers who harvest and dry the plants

before weaving them into braid.

Yothaka International alone consumes more than 8,000 kilometres of water hyacinth braid each year.

Water hyacinth is a naturally green product and no harmful chemicals are used to process the plant – a great new environmentally friendly material, which also generates income for local farming families.

Yothaka International's use of the prolific water polluting weed water hyacinth, earns Yothaka International Co Ltd. global recognition for producing a truly environmentally friendly product.

Since creating the very first piece of furniture in Water Hyacinth back in 1986, the award winning design team at Yothaka International have continued to inspire unique pieces. Each year a new collection is launched ensuring the latest design trends and manufacturing techniques are applied.

Perfect Pieces Limited introduced water hyacinth furniture to the New Zealand market in 1997. There are over 100 designs in three colour ways of water hyacinth, Natural, Chocolate & Charcoal.

New materials are - Yan Lipao a very fine fern vine and Polyethylene plastic for the outdoor collection.

Yothaka water hyacinth furniture has a proven track record of being suitable for domestic and commercial use. The extensive selection of designs has seen the Yothaka range a good option for both traditional and contemporary environments.

WATER HYACINTH

The water hyacinth plant is a spongy tropical water weed commonly found in the rivers and lakes of Southeast Asia. Water hyacinth grows densely in clumps of 8-10 stems each measuring an average of 60-80cm in length.

The rapid water hyacinth growth in Thailand has caused waterway clogging, resulting in water pollution. Substantial government spending is invested to endeavour to eradicate this problem. Along with manufacturer incentive schemes this has created active participation of local people to clear water hyacinth from the waterways. Water hyacinth is now a cash crop for many rural Thai people.

Yothaka water hyacinth furniture is made by creative artists and master craftsmen. The complete process is carried out by Yothaka International ensuring consistency and quality of each piece.

Yothaka water hyacinth furniture pieces are truly objects of art and beauty. It's aesthetic simplicity, delicate texture and natural look has drawn interest from interior designers and decorators all over the world.

1. Use the vacuum cleaner to remove dust.
2. Wash with mild soap and water, then dry.
3. Brush with nylon brush to remove dry food or mud etc..
4. A paint thinner can be used to remove tougher stains.

For major liquid spills, remove all upholstery, wash the water hyacinth with mild soap and water, and place outside or in a drying room to dry. Please note that it is important that the furniture is dried and not remain wet or damp for any length of time as this will result in mould and subsequent deterioration of the water hyacinth furniture.

Water hyacinth is a natural untreated handmade product and will absorb moisture and dry out in direct relation to climate conditions. To avoid any deterioration it is recommended that the environment be dry and well ventilated.

Special Notes:

Chocolate and Charcoal coloured water hyacinth is a stained natural product and colours may vary. Perfect Pieces Limited accepts no responsibility for any colour variation or fading.
